

Appendix 1 (updated for revision 24 MAY 2024/Cycle 2405)

Table 1

The following Table depicts the **International** airports (according to AIP Russia) and additional airports within Russia which are requested by international operators (**high priority** airports).

Unless requested by an international operator, charts for airports which are not listed in Table 1 will no longer be maintained in 2024 and are removed from the Jeppesen Airway Manual effective 2 Feb 24.

If an airport is listed in Table 1, it does not necessarily mean that any updates are required.

Airports which require updates are listed in Tables 2 (charts) or 3 (NavData).

Location	Airport Name	ICAO
(*) Abakan	Abakan	UNAA
(*) Anadyr	Ugolny	UHMA
Anapa	Vityazevo	URKA
Arkhangelsk	Talagi	ULAA
(*) Astrakhan	Astrakhan	URWA
