

FliteCharts Data Alert

TO: Users of all Garmin aviation products and Garmin Pilot™ using a FliteCharts® database with Australia content
DATE: July 16, 2024
CYCLE: 2407
SUBJECT: PORT LINCOLN (YPLC) NEW RNP PROCEDURE

DESCRIPTION

Airservices Australia has advised Garmin that a new RNP RWY 01 approach at Port Lincoln (YPLC), South Australia, Australia has been published in SUP H61/24, effective July 11, 2024. This chart is not included in FliteCharts databases with Australia content.

The original AIP supplement can be seen at the following link:

<https://www.airservicesaustralia.com/aip/current/sup/s24-h61.pdf>

PILOT ACTION

Be aware the RNP RWY 01 approach chart is unavailable at Port Lincoln (YPLC), South Australia, Australia in FliteCharts with Australia content for cycle 2408.

Alerts are written for the currently effective cycle and next cycle. It is possible that data from prior cycles is also affected. Garmin recommends using the latest effective data cycle.

RESOLUTION

The chart will be included in cycle 2408 of FliteCharts databases with Australia content for applicable Garmin aviation products and in Garmin Pilot. Cycle 2408 FliteCharts databases are effective August 8, 2024 and will be available August 6, 2024.

THIS ALERT SHOULD BE MADE AVAILABLE TO ALL USERS OF GARMIN AVIATION UNITS OR SYSTEMS USING A FLITECHARTS DATABASE WITH AUSTRALIA CONTENT

Garmin requests that the flight crew report any observed discrepancies related to database information. These discrepancies could come in the form of an incorrect procedure, incorrectly identified terrain, obstacles, fixes, or any other displayed item used for navigation or communication in the air or on the ground. Go to fly.garmin.com and select "[Aviation Data Error Report](#)."
